

MAHCP staffing announcement - Tim Smith

The MAHCP Executive Council is pleased to announce the addition of Tim Smith as Executive Liaison to President Bob Moroz and Council.

Tim comes to MAHCP from the non-profit charitable sector. He previously served as project manager for Manitoba's minister of health, advising on policy, communications, outreach and issue management, capping a five-year career in the Manitoba government supporting various cabinet ministers. He also has extensive organizing and political campaign experience, having held various management and volunteer positions in both provincial and civic campaigns.

Prior to his time in government, Tim worked at the community level for local non-profit organizations, both as staff and volunteer, and in market research. He has also taught undergraduate courses in literature and writing in both the U.S. and Canada.

Originally from Ohio, Tim and his wife Catherine, a professor at the University of Winnipeg, have called Winnipeg home for the past 10 years. An NFL and college football fan by birth, he has sought to blend in by learning at least some of the rules of hockey, by memorizing the "True North" portion of the national anthem and even dabbling in this thing called "curling."

He is very much looking forward to supporting Bob and the entire MAHCP team in the challenges that lay ahead.

Tim is the fifth MAHCP employee hired over the past 18 months, as LROs Angie Boehm and Chelsea Kaufmann joined MAHCP in June of 2017, and, in 2018, LROs Nathan Laser joined us in May and Garrett Finck in September.
