

Lyle Sasek

I have a bachelor's degree in Physiotherapy and am presently a master's degree candidate at the Johnson-Shoyoma School of Public Policy in Saskatchewan. I have worked in public and private health-care both within rural and urban settings here in the province since graduating from the University of Manitoba. I am presently a staff Physiotherapist at the Health Science Center and up until recently was a clinical senior on the adult orthopaedic outpatient services. As a passionate clinician I have attained the advanced clinical standing as a fellow of the Canadian Association of manual orthopaedic Physical Therapists. I have previously held the position of staff representative (now member Advocate) with the Manitoba Association of Healthcare Professionals (MAHCP). I have also sat on the boards of: The Manitoba branch of the Canadian Physiotherapy Association, the finance committee of the Canadian Physiotherapy Association, Richmond Kings Community Center, South Winnipeg Hockey Association and Agassiz day-care center.

I believe that MAHCP has placed itself well as the preferred representative of technical and professional health-care providers in Manitoba. With the upcoming vote and MAHCP's new role in Manitoba Health-care I would welcome the opportunity to serve it's membership by bringing my experiences in health-care and board governance to the executive committee of MAHCP.

Sincerely,
Lyle Sasek
