

# MAHCP.

Our focus is you

**We are Manitoba's  
allied health union.  
Our members are:**

- specialized professional/technical & paramedical.
- essential to patient, client, and resident care.
- integral to prevention, emergency response, diagnostics, assessment, treatment, rehabilitation & recovery.
- relied upon in hospitals, labs, clinics, long-term care and community settings throughout Manitoba's healthcare system.

# Our focus is you.

The Manitoba Association of Health Care Professionals is allied health. We are the only labour union in Manitoba solely dedicated to representing allied health, and we are more than 7,500 members strong.

**As highly-specialized healthcare professionals contributing throughout Manitoba's system, you belong with MAHCP.**

**We understand your value.** Allied health professionals are foundational to patient care and to a functioning system. Manitobans rely on your vital expertise in emergency care, prevention, diagnostics, assessments, treatments, and therapies.

**We advocate for you.** We propose actionable solutions to systemic challenges caused by critical vacancies and chronic underfunding. We champion recruitment and retention issues such as overload and burnout, and workplace safety concerns.

**We negotiate strong contracts.** Our healthcare system is much more than nurses and doctors. Allied health professionals deserve competitive wages, enhanced benefits, and safe, respectful workplaces.

## About MAHCP

### We're specialized.

- 55+ years of labour union history driven by and representing only healthcare professionals.
- Elected Executive Council of allied health professionals who understand their sector's needs.

### We're knowledgeable.

- Direct service model: Members can connect with Labour Relations Officers (LROs) for expert guidance.
- In-house legal counsel with extensive experience in policy and individual grievance filing and arbitration.

### We believe in unity and equity.

- Any member can attend General Meetings and have a voice.
- First union to invite bargaining proposals from members so we can negotiate terms to suit your needs.

### We're innovators.

- First union to secure maternity leave top-up benefit.
- Largest market adjustment and wage standardization fund ever in Manitoba.
- Rural & Northern employee wage differentials to address particular recruitment & retention challenges.

Midwifery	
Music Therapy	
Nuclear Medicine/PET	

**"As a rural EMS member, I've always felt valued and heard with MAHCP. They understand EMS and allied health because that's MAHCP's sole focus - they don't represent any other sectors. They have exceeded my expectations in communication, and my Labour Relations Officer always gets back to me quickly."**

**Chelsea, Paramedic  
The Pas**

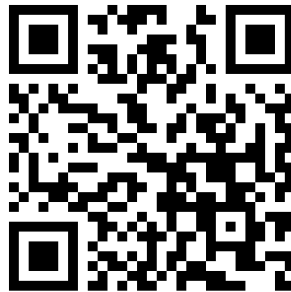

**MAHCP has among the lowest dues of all Manitoba's labour unions at 1.25%. We always use funds in a fiscally responsible way, to defray the cost of representation and arbitration, legal research, collective bargaining, and more.**

**“MAHCP understands allied health members’ issues. They listen, advocate and promote our professions. I trust and I am proud to be a part of this union.”**

**Karin, Physiotherapist  
Flin Flon**
